

GIS LAB
Department of Geography and Environmental Studies
University of Chittagong

This Lab is available for use to support teaching of cartography, remote sensing, and Geographic Information Systems (GIS) courses. The lab is outfitted with 20 computers dedicated to GIS. Other equipments include a wide-format plotter, a flatbed scanner, and a letter-size printer. The software currently includes licenses of Arc GIS 9.3.1 with extension like 3D Analyst, Arc GIS server, spatial tracking Analyst, Geo-statistical Analyst etc. The GIS Lab includes Arc GIS, Arc-Info, Arc-view, and a variety of statistical, spreadsheet, word processing, and presentation packages as well as Web authoring tools. The department is going to offer training course on GIS from the next year.
